Subject: Final Solve

Hello Liaisons,

As discussed, please stash the solve document in the book following movie night. I'm worried there could be trouble, and I want to make sure it remains in our possession. The book remains our most secure stash for this type of sensitive information.

Mike

Movie Night

The K.E.C. has indicated that the information in this section is time sensitive.

Join your Engineering Liaisons for a relaxing night of multimedia entertainment in Science Theatres at 18:00 hours. All members of your team are welcome. While attendance is not mandatory, please ensure that at least one member of your team is present, as there will be a quick K.E.C. presentation at the end that you don't want to miss!

Please note that working on KeyClue during Movie Night is strictly prohibited, even if you are not attending the event. Key Masters will post in the KeyClue discord notifying everyone of the start and stop of the embargo. This rule is in place so that participants don't feel bad about enjoying Movie Night rather than working on KeyClue.

Subject: Camera 1

As requested, we have been carefully monitoring the feed of the Project Purpleberry contractor Security Camera 1. We've noticed some patterns that raise some concerns. Groups of individuals we believe to be your contractors have been showing up on the feed a statistically improbable amount of times.

The frequency of these occurrences lead us to believe that the surveillance system has been compromised in some way. We recommend that your team immediately move Camera 1 and its associated materials.

Please don't hesitate to contact our team if you have any questions or concerns.

Surveillance Monitoring Team

Jenga Tower

The Knowledge Extraction Commission would like to sincerely apologize for our crass and frankly inexcusable treatment of evidence crucial to Project Purpleberry. The Engineering Liaisons had uncovered a Jenga game tower and *incorrectly* assumed that it was for team building.

Rest assured the K.E.C. takes this treatment of evidence very seriously, and those responsible will be held accountable and punished accordingly.

The tower was in fact evidence uncovered late January 10, 2024. Thankfully, the Evidence Preservation and Logging team had pictures of the tower, so we have been able to restore it to the original state for your analysis. Included with the tower was also some text:

I am reminded of our elite Jenga game

We pulled tiles:

- ☐ (Dice 1)
- Yellow
- Dark Green
- Dark Green
- ☐ (Dice 2)

The tower stood firm.

We continued:

- Light Green
- Yellow
- Magenta
- Blue
- Magenta
- ☐ (Dice 4)
- Blue
- Light Green
- Yellow
- ☐ (Dice 1)
- Cyan
- Yellow

The tower wobbled but stood.

We continued:

- Blue
- ☐ (Dice 1)
- Dark Green
- Blue
- Dark Green
- ☐ (Dice 2)
- Light Green
- Dark Green
- ☐ (Dice 1)
- Light Green
- Magenta

The tower stood.

No floor was fully removed,

and the top floor could balance another, squarely, if needed.

The tiles were then ordered by colour & number, and read on their side. For example:

Subject: Missing Wooden Towers

Hello Liaisons,

We are currently unable to find some new evidence related to Project Purpleberry that was in the evidence locker yesterday morning. We recovered several wooden block towers with symbols on them that we need for Evidence Preservation. Do you have any information on their whereabouts?

Evidence Preservation and Logging Team
