Can someone please zoom out camera 2 on Purpleberry? I can't see fucking shit.

## Games Night

**The K.E.C. has indicated that the information in this section is time sensitive.**

Join your Engineering Liaisons for an evening of games and relaxation in Engineering Lounge at 19:00 hours. All members of your team are welcome, and the attendance of at least one member of your team is mandatory.

Your team's performance at the games will determine your order in the Question Period tomorrow morning – details to follow in the next Information Dossier.

**Please note that working on KeyClue during the KeyClue portion of Games Night is strictly prohibited, even if you are not attending the event. After the KeyClue portion is completed, the embargo will lift. People are welcome to stay and continue playing games. Key Masters will post in the KeyClue discord notifying everyone of the start and stop of the embargo. This rule is in place so that participants don't feel bad about participating in Games Night rather than working on KeyClue. Come cheer on your team's representative!**

Date: January 09, 2024

Security: High

**MEMORANDUM**

**FOR INFORMATION**

**SUBJECT:** Velocom Termination

**SUMMARY**

This memorandum is to provide proof of termination.

We will not be hearing from Velocom any time soon:

<https://drive.google.com/file/d/1qrEV8vbX816LZXGopQREuPHY1gH7L1Zy/view>

No survivors found at the site; one female corpse that matches your description. Items found in the car include some assorted groceries and a small key. We'll make sure the key gets back to HQ for further analysis.

No witnesses were at the scene. We currently do not believe the public suspects any foul play.

Contact the Coverups and Conspiracy Team for any questions.

## Intercepted Pastel Blobs

This morning a trace running on a terrorist-associated phone was able to capture the following image. We don't know where the image was sent, but the Commission suspects it was sent internally amongst the cell. If there are any colourblind members on your team, consider scanning this page taking advantage of a computer-assisted colour identifier. You can find this image at:

<https://drive.google.com/file/d/1KoFRWy2DYf33j2JxC-h5qxo9g13zf0SE/view>

**Subject:** Weird Chat Message

Hey Dean,

We've become aware that an odd chat group was created in the KEC portal. The username has characters we understood to be illegal for our usernames. Could you take a look?

## Intercepted Papyrus Communication

The K.E.C. has been able to intercept another communication from the terrorist cell. We believe this was sent out recently. The Commission feels strongly that we need to know what this is supposed to point to, so please prioritize its decryption. To aid your team, we have already identified two pieces of information:

1. By our count, there are 122 characters, 79 of which are distinct,
2. The font used is Papyrus. The K.E.C. resents the use of Papyrus in any situation and is further evidence that these Terrorists must be stopped.

A scan of the communication can be seen below:

Just wanted to say again how glad I am that we were able to send out those contractors to risk their lives with the Velocon situation. Better them than me. Sounds like they did a good job though – we should congratulate them somehow.

Don't let anyone die!
