Knowledge Extraction Commission Pacific Environmental Paper Saving Initiative

In an era marked by unprecedented environmental challenges, the Knowledge Extraction Commission (K.E.C.) stands as a beacon of responsibility and commitment to sustainable practices. It is with great pride and a sense of urgency that we introduce the Pacific Environmental Paper Saving Initiative, a bold step toward fostering a greener, healthier planet.

As the custodians of knowledge, we recognize the significant impact of our actions on the environment. The Pacific Environmental Paper Saving Initiative is a testament to our unwavering dedication to mitigating climate change by reducing our paper consumption. The Commission acknowledges the urgent need to address environmental issues, and this initiative serves as a proactive response to the growing concerns surrounding deforestation, carbon emissions, and the overall ecological balance.

At the heart of this initiative lies our profound concern for the well-being of our planet. By championing paper-saving measures, we strive to alleviate the burden of climate change that disproportionately affects our global community. We firmly believe that every sheet of paper saved is a tangible contribution to preserving our precious ecosystems and combating the adverse effects of deforestation.

This initiative is not merely a policy; it is a collective responsibility that extends to each member of the Knowledge Extraction Commission. We recognize that the burden of climate change rests on the shoulders of every employee, and by embracing the Pacific Environmental Paper Saving Initiative, we empower our team to be catalysts for positive change.

Together, let us turn the page to a greener future.

Overview

Project Purpleberry is an ongoing case led by the Knowledge Extraction Commission (K.E.C.) involving a group of fugitives believed to possess critical national secrets. The fugitives are highly intelligent individuals with seemingly ordinary backgrounds, making them elusive targets. The K.E.C. has successfully located and apprehended one of the fugitives: Gabriel Martinez, whose demise yielded a mysterious key with an unknown purpose.

Current Status

- Gabriel Martinez has been successfully located but perished during his arrest.
- Key found on Gabriel's body, purpose unknown.
- Ongoing investigation into intercepted SMS and MMS messages of Aisha Khan.
- Social media post by Tomáš Petrov under scrutiny for potential leads.
- Anonymous package with Sudoku puzzles raises questions; Malcolm Thompson's motives are at this point unknown.

Recommendations

- **Collaboration:** Encourage collaboration between team members to connect the dots. The seemingly disparate events may reveal hidden connections.
- **Vigilance:** Given the elusive nature of the fugitives, maintain a high level of vigilance and adaptability. It is likely they will use their intellects and technological skills to remain hidden.
- **Focus Areas:** Intensify efforts to unravel the purpose of Tomáš Petrov's online activities, Aisha's text messages, and Malcom's puzzles.

Project Purpleberry demands a combination of analytical prowess, technological acumen, and collaborative efforts. The K.E.C. remains committed to extracting the knowledge held by these fugitives for the security of our nation. New recruits are integral to the success of this mission, and your dedication to this cause is paramount.

Suspect Profiles

Malcolm Thompson

Birthplace	Unknown
Birthdate	Unknown
Sex	Male (Presumed)
Height	Unknown
Designation	Astrafluxa

Image Not Available

With the lack of a known photograph, the identity of Malcolm Thompson remains shrouded in mystery. The K.E.C. suspects this man to be the mastermind behind the fugitive group, contributing a strategic and intellectual dimension to their endeavors. The Commission believes Malcolm possesses critical national secrets that pose a threat to the security of Canada.

The K.E.C. recognizes Malcolm Thompson as a high-priority target, and the absence of a photograph has only heightened the challenges of tracking him down. As of today, the only hard evidence of his identity is a short voice recording of him speaking Dutch. The Commission is actively pursuing leads - both digital and physical, to decipher Malcolm's role within the fugitive group and uncover the knowledge he possesses.

MEMORANDUM

FOR INFORMATION

SUBJECT: Christmas Party 2023

SUMMARY

This memorandum is to provide details and gathered feedback regarding the 2023 Christmas Party

Thanks everyone for filling out the survey regarding our Christmas party. The Knowledge Extraction Commission is always looking to improve, and we know a lot of employees weren't happy with how the party turned out.

We've gathered all your feedback and launched an investigation into why the party was lackluster. The investigation managed to identify the following 17 areas for possible improvement:

1. ATTENDANCE

Regrettably, the turnout was far below our expectations. Even though the invitation extended to all members of the K.E.C. family, very few individuals attended the event. This low attendance significantly impacted the atmosphere of the party and contributed to its overall lackluster nature.

2. FOOD QUALITY

Feedback received from the people that went highlighted dissatisfaction with the food provided. Many expressed disappointments in the taste and variety of the dishes offered. This negative experience with the catering contributed to a further decline in the overall enjoyment of the event.

3. ENTERTAINMENT

The entertainment aspects of the party received negative feedback. The choice of DJ and the music selection did not resonate well with the attendees. A lively and engaging atmosphere was sorely lacking, contributing to the overall disappointment experienced by those who did attend.

Regrettably, a concurrent event celebrating a Bat Mitzvah at the neighboring venue disrupted the atmosphere of our Christmas party. The clash of festivities and differing

Isabella Moreau

Birthplace Ottawa, Canada
Birthdate February 22, 2000
Sex Female
Height 160cm
Designation Velocora

Isabella is distinguished by her black hair and intellectual prowess, leveraging her skills to cover digital tracks and maintain a discreet online presence. The K.E.C. recognizes her as a key player within the fugitive group, contributing a significant technological dimension to their activities.

The Commission's investigation into Isabella has revealed her active involvement in online activities, with a focus on utilizing her cyber expertise to remain elusive. Isabella's ability to cover her digital tracks has posed a challenge for the K.E.C., requiring specialized efforts to trace her movements and decipher her communications.

As the K.E.C. intensifies efforts to apprehend Isabella, it is becoming increasingly clear that her technological acumen is a critical aspect of the fugitive group's operations. We are committed to unraveling Isabella Moreau's role.

Aisha Khan

Birthplace	Mumbai, India
Birthdate	August 5, 1998
Sex	Female
Height	168cm
Designation	Ombrixia

With no criminal record, Aisha's seemingly ordinary background conceals a mind that the K.E.C. believes harbors critical national secrets. Aisha's distinctive traits include her black hair and an unassuming demeanor that belies her potential involvement in activities of national importance. The K.E.C. has initiated an investigation into her SMS and MMS communications, recognizing the significance of understanding her social connections and potential leads.

The lack of a criminal record and minimal digital footprint heighten the challenges in tracking Aisha Khan. The K.E.C. acknowledges her intellectual capabilities and the potential value of the knowledge she possesses. Aisha's motivations remain a puzzle, and the Commission is actively pursuing any leads that could shed light.

Gabriel Martinez

Birthplace Buenos Aires, Argentina
Birthdate April 3, 1999
Sex Male
Height 183cm
Designation Solsticea

On the evening of November 20, 2023, the K.E.C. successfully tracked down and apprehended Gabriel Martinez. The K.E.C. had received intelligence suggesting Gabriel and Isabella were to meet in a secluded warehouse on the outskirts of Montreal. A K.E.C. field team located Gabriel but was unable to find Isabella.

The K.E.C. field team executed this operation with precision, combining technological surveillance and on-the-ground tactical maneuvers. As K.E.C. agents closed in on Gabriel, he displayed a remarkable ability to evade capture, employing a combination of agile movements and sophisticated counter-surveillance techniques. Despite his efforts, the field team managed to corner Gabriel within the warehouse.

In the climactic moments of the operation, a brief but intense struggle ensued. Gabriel, displaying unexpected combat skills, resisted apprehension vigorously. It became apparent that he was determined to avoid capture at all costs. In the heat of the confrontation, Gabriel sustained fatal injuries, the exact circumstances of which are currently under internal investigation.

The only thing of note on Gabriel's body was a VR91AR 5-pin key. The significance and purpose of this key remain unknown, so the Engineering Liaisons have entered it into evidence.

Tomáš Petrov

Birthplace Bratislava, Slovakia
Birthdate September 17, 1998
Sex Male
Height 173cm
Designation Etherionix

Tomáš's nationality and background introduce challenges for the Commission, as international cooperation may be required to navigate legal complexities. Tomáš Petrov remains an elusive figure within the fugitive group, using his technological acumen to stay one step ahead of authorities. As the investigation progresses, the K.E.C. is dedicated to apprehending Tomáš and extracting the knowledge he possesses for the greater security of Canada.

As part of the Potentially Dangerous Individuals Tracking Initiative (PDITI), the K.E.C. ran a successful phishing campaign against Tomáš. The Commission was able to infect his computer with specially designed software that has the capability of tracking online activity. All files produced by his computer contain cryptographic signatures that the K.E.C. can track.

Open Work

What follows are open leads and evidence against the terrorist cell. The K.E.C. has internally exhausted resources investigating these leads, but still thinks them to be potentially relevant.

Intercepted SMS, MMS Messages

On the 5th day of January in the year 2024, Telus Communications Inc. executed our subpoena (ref. 20231203112241) for SMS and MMS messages sent to and from known phone numbers belonging to suspected members of the cell. What follows are messages sent between two pre-paid burners purchased by Aisha Khan.

Date	Time	Type	From	To	Message Text
10-Nov-2023	02:14:05	SMS	[REDACTED]	[REDACTED]	hey
10-Nov-2023	02:14:13	SMS	[REDACTED]	[REDACTED]	looks like they r restarting, we need to rally the troops
10-Nov-2023	02:17:32	SMS	[REDACTED]	[REDACTED]	Shit.
10-Nov-2023	02:42:59	SMS	[REDACTED]	[REDACTED]	Done. FYI they might have tapped these phones.
11-Nov-2023	14:42:01	SMS	[REDACTED]	[REDACTED]	what did you think of the Spotify playlist
11-Nov-2023	14:46:42	SMS	[REDACTED]	[REDACTED]	I listened to them all several times. I liked some more than others.
11-Nov-2023	14:46:43	MMS	[REDACTED]	[REDACTED]	<9997f2f5-751b-4568-ad1e>
11-Nov-2023	14:48:22	MMS	[REDACTED]	[REDACTED]	<533e9f4a-d79e-48a2-b958>
11-Nov-2023	14:48:23	SMS	[REDACTED]	[REDACTED]	you liked it more than me, lol some of them are probably too long so ill find some shorter songs

Social Media Leak

The K.E.C. Social Media Exfiltration team was alerted to an image posted on X (formerly Twitter) on the 15th day of November, 2023. The image embedded in the tweet contained signatures consistent with software previously injected into the computer of Tomáš Petrov. We have been unable to locate the Target store in the image, nor determine the relevance of the bees. James Fridman is not a suspect at this time, and we believe this image to be mistakenly leaked by the Terrorist Cell.

James Fridman 
@fjamie013

It's already perfect. Respect the bees.

Sudoku Puzzles

On the 17th day of November 2023, the K.E.C. head office received an anonymous package via First Class Mail that contained the attached document. We found traces of DNA on the document consistent with a crime scene associated with Malcolm Thompson. We believe Malcolm to be the person behind this document, but we do not at this time know the motivation or purpose of the document.

We have gathered that there are two sudoku puzzles on the first page, but the K.E.C. Casual Puzzle team is still working on solving them as the rules appear to be somewhat convoluted.

The purpose of the other symbols on the page is as of yet unknown.

You can find a copy of the document at the end of this dossier.
